As with tradition, WIT-LA will begin the new year with an address from our U.S. Customs and Border Protection (CBP) officials. Attendees will be apprised of a general briefing of the state of our local ports, as well as 2012 directives from CBP Headquarters. This important update will provide the international trade community with a better insight of what should be expected from CBP in the future. We will also hear of some innovation measures to help us be better prepared in our business.
